Public Health Inspector : A. F. Green, Cert. S.I.B.

Secretary : Miss J. M. Swain

ANNUAL REPORT FOR THE YEAR 1969

Mr. Chairman, Ladies and Gentlemen,

I herewith present my Annual Report for 1969.

The estimated population figure is given as 9,880, as against 9,780 for 1968.

The birth rate per 1,000 population shows a decrease to 12.95 from 14.82 for 1968.

The death rate per 1,000 living has risen to 12.04 from 10.94 for 1968.

There were 119 deaths as compared with 107 for 1968. Seven deaths were due to cancer of the lung, all males.

It is very satisfactory to report that there have been no maternal deaths during the year and only three infants have died under one year of age from a total of 128 births.

The Clay Cross and District Mobile Physiotherapy Service was formally inaugurated by His Grace, The Duke of Devonshire, on October 11th, 1969, and has continued to render valuable service. It is run by a voluntary committee, under the chairmanship of Councillor Lander, and supported by voluntary subscriptions and local authority grants.

I would like to offer my sincere thanks to the members of the Council and my colleagues for the help and co-operation I have received during the year, and with the preparation of this report.

DAVID P. ADAMS

Medical Officer of Health

NATIONAL ASSISTANCE ACTS

A number of persons were kept under observation during the year, and efforts made in appropriate directions to assist with their problems. It was not considered necessary in any case to recommend that action should be taken under Section 47 of the National Assistance Act.

Report to Medical Officer of Health on Water Supply to Clay Cross Urban District Council - Year 1969

The supplying authority to the area is the North Derbyshire Water Board.

Press reservoirs now provide the source of supply, the treatment is screening followed by chlorination.

The quantity proved generally adequate, but for part of the year a restriction on the use of hosepipes was imposed.

Chemical and Bacteriological analyses are carried out in the Board's laboratories. All raw, treated and distributed waters are examined at least monthly, the number of examinations involved in 1969, being :-

Bacteriological	99
Chemical	54

Bacteriological results on treated waters have been consistent with standards laid down by the Ministry of Health. Chemical results in view of the number of water sources involved vary considerably with location, and approximate extremes of variation are :-

pH	7 - 7.4
Alkalinity (CaCO_3)	60 - 150 mg/l
Hardness (CaCO_3)	150 - 220 mg/l
Fluoride (F)	0.2 - 0.4 mg/l
Chloride (Cl)	19 - 28 mg/l

The treated waters in the area have given rise to no concern on the grounds of plumbo solvency, and analyses on the supply water at source, in distribution and after overnight standing in lead service pipes have yielded figures within the recently revised acceptable lead concentration.

The number of houses connected during the year was 119.

No major schemes were undertaken in the area.

992 yards of main were laid for housing developments.

Before being brought into service all newly laid mains were washed out, sterilized and samples examined to ensure satisfactory bacteriological and physical results were obtained.

No action was necessary in respect of any other form of post treatment contamination.

/The waters

WATER SUPPLIES (continued)

The waters were monitored to detect any excessive amounts of radioactive substances.

Monthly reports of current bacteriological and physical results were forwarded to the Medical Officer of Health.

SUPPLIES FROM PUBLIC WATER MAINS

1.	Number of houses connected to mains	...	3,390
	Estimated population involved	...	9,857
2.	Number of houses on stand pipes	...	NIL
3.	Number of houses not supplied from mains or standpipes	...	7
	Estimated population involved	...	18

COMMON LODGING HOUSES

There are no common lodging houses in the District.

HOUSING

Number of houses inspected for housing defects (under Public Health or Housing Acts)	142
Number of houses found not to be in all respects fit for human habitation	81
Number of houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation				57
Number of defective houses rendered fit in consequence of action (formal or informal) by Local Authority	63
Number of houses in respect of which						
(a) demolition orders were made	-
(b) closing orders were made	1
Number of houses included in Clearance Areas	54
Number of houses demolished in pursuance of Demolition or Clearance Orders	89

In furtherance of the Council's policy to ensure that all the sub-standard property in the district is either cleared or improved in the shortest possible time, the Public Health Inspector was engaged for the greater part of his time on housing inspections, visits and re-visits. During the year two further Clearance Areas were declared; the Thanet Street (No. 2) Clearance Area, and the Park Row (No. 1) Clearance Area, involving thirty-six premises. These were the two largest areas of unfit houses remaining in the district, and when all the tenants of these houses have been rehoused, the major portion of the Council's slum clearance programme will have been completed, for the few areas of unfit properties which will be left comprise only of six or eight houses, and these will be dealt with over the next two or three years.

During the year forty-eight families were rehoused from sub-standard properties.

NEW HOUSES

The following new houses were erected during the year:-

(a) Local Authority	68
(b) Private Enterprise	55

RENT ACT, 1957

No action was taken during the year.

IMPROVEMENT GRANTS

No improvement areas were declared and only twenty applications for standard grants were received, all of which were approved.

The Coouncil continued with their policy of acquiring premises suitable for improvement, and five such properties were improved during the year.

SANITARY INSPECTION OF THE DISTRICT

The following inspections were made during the year :-

Houses inspected (under Housing and Public Health Acts)	142
Visits paid to above houses	364
Visits paid in connection with improvement grants	64
Drainage	56
Houses - let-in - lodgings	3
Moveable dwellings	8
Keeping of Animals	2
Hairdressers	6
Inspections under the Pet Animals Act, 1951	3
Enquiries into cases of notifiable disease	3

SANITARY INSPECTION OF THE DISTRICT

(continued)

Atmospheric Pollution	6
Public Conveniences	10
Filthy and/or Verminous Premises	4
Miscellaneous Inspections	31
Offensive Accumulations	1

PUBLIC CLEANSING

This service is carried out under the supervision of the Council's Engineer and Surveyor.

SEWERAGE AND SEWAGE DISPOSAL

I wish to thank the Engineer and Surveyor for the following report :-

"The sewerage of the area is satisfactory; one of the Council's two Sewage Disposal Works continues to function efficiently and is giving satisfactory effluent samples.

Work on the new disposal works to replace the old works at Danesmoor continued satisfactorily during the year."

				<u>Estimated Population involved</u>
Number of houses in district connected to sewer	3,347 9,745
Number of houses in district not connected to sewer	50 130
Number of connections made during the year :-				
(a) existing houses	NIL
(b) new houses	123
(c) other premises	NIL
Number of conversions to waterclosets	NIL

PET ANIMALS ACT, 1951

Two licences under the provisions of the above Act were issued during the year.

PREVENTION OF DAMAGE BY PESTS

The Council employs one part-time rodent operator, who also carries out duties in connection with the control and destruction of other household pests.

Complaints are dealt with promptly, and no difficulties have arisen during the year.

Number of properties inspected for the presence of rats and mice :-

(a) following notification	71
(b) survey under the Act	126

Number of properties inspected found to be infested by :-

(a) Rats	68
(b) Mice	22

Number of properties treated by the Local Authority 85

ANIMAL BOARDING ESTABLISHMENTS ACT, 1963

Only one licence was issued under the above-mentioned Act; the premises being used for the boarding of cats.

PETROLEUM (REGULATION) ACTS, 1928 and 1936

Thirteen premises were licenced for the storage of petroleum during the year, the total amount of petroleum stored being 27,070 gallons.

OFFICES, SHOPS AND RAILWAY PREMISES ACT, 1963

The following tables show the number of premises, persons employed and inspections in connection with the above Act, as at 31st December, 1969 :-

Class of Premises	No. of Premises Registered during 1969	Total No. of Registered Premises at end of 1969	No. of Registered Premises receiving a general inspection during 1969
Offices	NIL	8	4
Retail Shops	NIL	46	10
Wholesale Shops, Warehouses	NIL	3	2
Catering Establishments open to the public, canteens	NIL	3	3
Fuel storage depots ..	NIL	1	1

The total number of visits of all kinds made to registered premises during the year was forty-seven.

MEAT INSPECTION

There is only one small private slaughterhouse registered in the District, where the owner slaughters animals for his own butcher's business. A 100% post mortem inspection has been maintained, necessitating seventy-eight visits to the slaughterhouse during the year. The premises are well maintained, and no problems have arisen during the year. No serious defects or contraventions of the various Acts and Regulations were notified.

INSPECTION OF OTHER FOODS

The following other foods were voluntarily surrendered on being found to be unfit for human consumption :-

Canned Foods :-

Fruit	51 lbs. (39 tins)
Tomatoes	68 lbs. (147 tins)
Vegetables	23 lbs. (24 tins)
Meat	13 lbs. (10 tins)
Fish	8 lbs. (15 tins)

54 Packets Prepared Frozen Foods.
